

ENERGISING INDUSTRY

Fewer businesses reported taking "no action" to reduce carbon emissions

...but still **30%** did nothing!

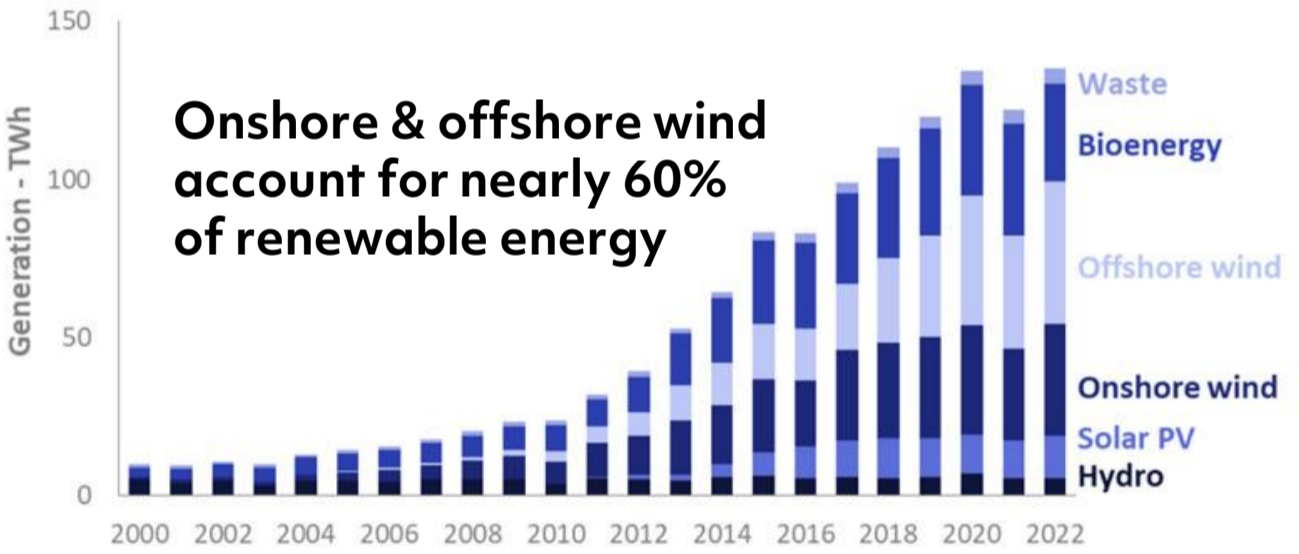

22% of businesses with 250+ staff have a net zero target in place, **NetZero** (meaning 78% don't!)

41.5%

of all UK Electricity was generated by renewables in 2022

One Trillion KWh of electricity has been generated from renewable sources over last 50 years...another Trillion will take just 5 years to generate.
